Mighty Gladiators

Four heroes. One Fallen Citadel. Survive together.

Solo + online co-op / 1-4 players

Planned release: Q2 2027

The game

Mighty Gladiators is a dark fantasy arena action RPG for 1-4 players on PC. Fight waves of enemies, shape your hero with skills, talents and legendary equipment, and master boss mechanics solo or with up to three friends in online co-op.

Internet required, including solo

What makes the arena tick

Four distinct heroes

Choose the Orc Warrior, Elf Archer, Dwarf Runic Warden or Human Sorceress, each with a different combat style.

Build your gladiator

Combine active skills, three talent paths per hero and legendary equipment. Buy, forge and upgrade gear between waves.

Learn the encounter

Read attacks, react to arena mechanics and coordinate your party against powerful bosses, culminating in the King of the Fallen.

Friends become rivals

Challenge one another in PvP rounds between boss encounters, then reunite for the next PvE battle.

BEHIND THE CITADEL

A childhood idea. A shared adventure.

Mighty Gladiators began with a childhood wish: to make a game that captured the feeling of playing Warcraft III custom maps and mods with friends. Years later, that idea became a world its creator and friends could explore together.

The game's foundation took shape over 660 hours of solo development, using Three.js with help from Tripo3D and GPT-6 Astra. That milestone was the start of development, not the completion of the game. Repeated co-op sessions with friends have helped shape its combat, builds and boss encounters.

Developed and published under INTERSTORE GAMES, Mighty Gladiators is now preparing for a PC release on Steam. The aim remains personal: give friends a reason to try another build and stay for one more battle.
